

Protecting Medicine Through Political Action

The Kentucky Physicians Political Action Committee (KPPAC), donates to candidates who understand the significance of the physician-patient relationship and the benefit of a strong medical community to the health of our citizens and prosperity of our state and country. KPPAC makes contributions to candidates who share these values, champion pro-medicine policy goals in Frankfort and Washington, and who lead important committees in the General Assembly and U.S. Congress. Below is a listing of KPPAC supported candidates during the 2016 general elections.

2016 KPPAC Election Contributions
