

# 2020 VOTING RECORD

Hundreds of bills are introduced each legislative session with a large percentage devoted to health care issues. The decisions legislators make relating to these issues have a significant impact on the practice of medicine. As the only statewide association that represents all physicians and patients before the Kentucky General Assembly, the Kentucky Medical Association (KMA) maintains a strong physical presence in Frankfort each year, and is dedicated to advocating on behalf of its membership in order to protect the practice of medicine in Kentucky and to ensure patients have the access to care that they deserve.

In an effort to keep members informed, KMA is supplying members a legislative voting record that was compiled from the 2020 Regular Session. The voting record indicates how members of the General Assembly voted on bills designated as key pieces of legislation by KMA. While the General Assembly addressed a myriad of healthcare-related issues during the most recent session, the voting record only includes legislative items that received a floor vote by the House and/or Senate. Additionally, please note that the original language of a bill is typically amended during the legislative process and may have various iterations. Therefore, the bills included in the voting record are based on their final form.

A brief description of bills is provided below. However, if you would like to review the actual language of these bills, simply visit the Kentucky Legislative Research Commission’s home page at [www.lrc.ky.gov](http://www.lrc.ky.gov) for further information.

### Senate Bill 56: Tobacco 21 (KMA PRIORITY) KMA SUPPORTS PASSED
