

RESOLUTION

Subject: Health Education
Submitted by: Lexington Medical Society
Referred to: Reference Committee

WHEREAS, the National Health Institute has documented that menarche (the initiation of menses) is occurring at an earlier age than previously documented¹. Further, there are racial differences in the age of menarche²; and

WHEREAS, the children of the commonwealth including children of color, deserve education regarding sexual development prior to menarche, education regarding sexual development should occur prior to grade 5; now, therefore, be it

RESOLVED, that KMA supports legislation to remove age limits for health education in schools.
